

AGC of America, supported by a Susan Harwood Federal Grant, is pleased to offer...

CRANE MANAGEMENT

FREE TO ALL ATTENDEES

Program Description:

According to the Bureau of Labor Statistics (BLS), from 2011 to 2015, the Census of Fatal Occupational Injuries (CFOI) reported 220 total crane-related deaths, an average of 44 per year over this 5-year period with 42% of the fatal work injuries taking place in the private construction industry. The data also shows that specialty contractors and heavy and civil engineering construction accounted for the most fatalities involving cranes in private construction. AGC of America is pleased to offer this one-day training program based on OSHA standards and best practices to answer the need for quality training within the industry.

Who Should Attend?

- Company Officers
- Estimators
- Managers
- Project Managers
- Supervisors
- Foremen
- Both Union and Non-union Contractors

Training Date and Time:

March 26, 2020
8:00 A.M. – 5:00 P.M.

Training Location:

Operating Engineers Training
Center 457 Christopher Road
New Alexandria, PA 15670

Chapter Contact:

Jason Koss
Constructors Association of
Western Pennsylvania
Phone: (412) 343-8000
Email: jasonk@cawp.org

Program Contact:

Nazia Shah
