WHAT IS THE STUDENT ESTIMATING COMPETITION?

The Student Estimating Competition, sponsored by the Constructors Association of Western Pennsylvania (CAWP), is a two-day competition between student teams from universities in Pennsylvania. Teams of 6 students, using a set of plans, specifications and bid documents, will prepare a bid and schedule for a highway construction project.

HOW DOES IT WORK?

Under expert guidance of industry mentors, students work as teams during the academic year (Oct - Feb) to prepare for the competition. There will be 6 - 12 virtual and/or in-person team sessions lasting 1 to 1.5 hours.

The competition begins Wednesday evening, February 24 and ends on Friday, February 26, 2021. Teams not only earn points for the final bid, they are evaluated by industry judges on their Zoom presentation and answers to questions.

The competition is something that the students can get excited about, but in actuality, they are developing skills in construction project management along with skills in critical thinking, organizational, communication, and teamwork.

HOW WILL VIRTUAL WORK?

The competition will be virtual. That means some or all mentoring sessions will be virtual and well as the competition. The teams may work together, if allowed, but there will be no travel required. All documents will be submitted electronically. The presentations will be conducted by Zoom to a panel of judges. A career fair and award presentation will be held virtually as well.

HOW MUCH DOES IT COST?

You can't beat the price - FREE, there are no entry fees.
