CELEBRATING OUR
WOMEN IN CONSTRUCTION

In celebration of Women in Construction (WIC) Week, CAWP is highlighting several women who are vital to the heavy / highway construction industry of western Pennsylvania. These women work at all levels within their respective companies and are great examples of the opportunities available to women in the industry. The focus of Women in Construction (WIC) Week is to highlight women as a viable component of the construction industry. WIC Week also provides an occasion for NAWIC's thousands of members across the country to raise awareness of the opportunities available for women in the construction industry and to emphasize the growing role of women in the industry. It is also a time for local chapters to give back to their communities.
