Join CAWP for National Safety Stand-Down to Prevent Falls in Construction May 3-7, 2021

A Safety Stand-Down is a voluntary event for employers to talk directly to employees about safety. Companies can hold a stand-down by focusing on fall hazards and reinforcing the importance of fall prevention. It's an opportunity for employers to have a conversation with employees about hazards, protective methods, and the company's safety policies and goals.

We are asking contractors to participate by hosting an activity on fall prevention or related safety topic. This effort is to make your employees aware of the importance that your company places on safety.

How to Participate:

1. Hold safety meeting/toolbox talk. Posters, factsheets, videos, and education materials can be accessed here: <http://stopconstructionfalls.com/>
2. Engage in a virtual Safety-Stand Down Kick-off Event – May 3, 1:00pm
<https://stopconstructionfalls.com/> - click on stand-down link and register.
3. Fall Hazard Awareness Training – Enroll employees in free awareness education with one of CAWP's partners organizations:
