Complete the 2021 HCSS and AGC Highway Work Zone Safety Survey and Help Protect Highway Workers

AGC of America and survey partner [HCSS](#) are asking all highway and transportation members involved in highway construction work to evaluate the state of highway work zone safety by completing this annual [survey](#). AGC wants to collect information on the number, severity, impacts and potential solutions to highway work zone crashes. The intention is to use the information collected from this survey as the main focus of a media and public education campaign that will launch the week before Memorial Day and the traditional start of the summer driving season.

Please take a few minutes to complete this important highway work zone safety survey by May 14th.

Contact Brian Turmail at 703-459-0238 or brian.turmail@agc.org with any questions, comments or concerns about this survey and plans to use it to promote highway work zone safety.

Join CAWP for National Safety Stand-Down to Prevent Falls in Construction - May 3-7, 2021

A Safety Stand-Down is a voluntary event for employers to talk directly to employees about safety. Companies can hold a stand-down by focusing on fall hazards and reinforcing the importance of fall prevention. It is an opportunity for employers to have a conversation with employees about hazards, protective methods, and the company's safety policies and goals.

We are asking contractors to participate by hosting an activity on fall prevention or related safety topic. This effort is to make your employees aware of the importance that your company places on safety.

For details on how to participate, and to access **FREE TRAINING TOOLS**, [view](#) the recent safety bulletin.

National Work Zone Awareness Week a Success

The 2021 National Work Zone Awareness week took place April 26-30 with the theme “Drive Safe. Work Safe. Save Lives.” CAWP participated in this national initiative to once again educate the traveling public about dangers of driving through work zones.

This year, participating companies were invited to hold a safety stand-down on Preventing Struck-By Incidents and to support “Go Orange Day” on April 27 by wearing orange to show support for safety in work zones.

CAWP would like to thank the following member companies for submitting photos of their participation in National Work Zone Awareness Week:

Donegal Construction Corporation
Francis J. Palo, Inc.

If your company participated in National Work Zone Awareness Week, you can still submit your photos to Jodi at jodit@cawp.org for the gallery.
