PennDOT Concrete Field Testing Technician Certification Program & 2022 Schedule of Certification Classes

PennDOT requires that all testing and sampling of concrete be performed by an individual who is qualified in testing and sampling. This PennDOT Certification program satisfies this requirement.

Schedule:

Virtual courses will be held starting in January and ending in April 2022. The course schedule, course application, course agenda, and the exam retest application form can be downloaded from NECEPT's website at www.superpave.psu.edu under the Training menu.

Course Fees:

The 2022 course fee is \$80 per person

This Education Bulletin may be downloaded at www.cawp.org under Education & Training.
