Issue #39-21 | September 27, 2021

CAWP + AGC

In 1939, CAWP was granted a full charter with the Associated General Contractors of America (AGC), the largest and oldest national construction trade association in the United States. Established in 1918, AGC is the most respected voice of the construction industry in the U.S. Congress and has continued to enhance its reputation for being the respected voice of the construction industry in Washington, D.C.

Your membership in CAWP includes membership in AGC. Please watch this section in the CAWP Weekly to stay up-to-date on the news, events, and member benefits from AGC and other AGC chapters.

Bipartisan Infrastructure Bill Set for a Vote as Early as September 30

House Republican Leadership & Progressive Democrats Unite Against Bill

The Bipartisan Infrastructure Bill, or [**Infrastructure Investment and Jobs Act**](#) (IIJA), which passed the Senate over a month ago, is set to be voted on as early as September 30.

Action is needed before the current one-year extension of the FAST Act surface transportation law expires September 30. If the bipartisan infrastructure bill does not pass before September 30, the federal-aid highway and transit construction programs will expire, causing a slowdown and eventual end to federal payments to states for transportation construction projects already underway. House Republican Leadership also announced that

they are urging all Republicans to vote against the bill, just as many Progressive Democrats do the same among their ranks.

It is so important that all AGC members participate in our [action alert](#) to help us get this bill across the finish line. AGC also put together this [Myth vs. Fact slide](#) to assist you with countering any misleading or misstatements about the bipartisan infrastructure bill.
