OVER 700 TOYS DONATED BY CAWP MEMBERS

CAWPCLC TOY DRIVE

CAWP CLC Toy Drive Creates Christmas Magic!

The CAWP Constructors Leadership Council (CLC) Toy Drive was once again a huge success. Well over 700 toys were generously donated by CAWP members!

Check out the donations and the special delivery we made on December 3!

The abundance of donations was greatly appreciated by the local Salvation Army staff.

“ Thank you so much for the incredible generosity of the CAWP, providing over 700 toys that will be distributed throughout Western PA. It is so much more than toys; it is about hope, love and the Christmas joy you are spreading! Every child deserves to experience the magic of Christmas regardless of their family’s circumstances and we so appreciate you making this happen each year!” said Melissa Rosensteel of the Salvation Army.

The toys will be distributed by Rosensteel and others with the Salvation Army throughout next week to area children in need, primarily in the Mount Pleasant and New Stanton areas.

Thank you to everyone who donated toys or made financial contributions to the Toy Drive!

A special thank you to Stephanie Sedar & bus driver Jim of **All-State Career** for providing the bus to transport all the donations to the Salvation Army.

CAWP Participates in Pitt IRISE Brainstorming Session

On Thursday, December 2, the Association participated in the University of Pittsburgh's Impactful Resilient Infrastructure Science and Engineering (IRISE) brainstorming session. IRISE is a research consortium housed in the Civil and Environmental Engineering Department in Swanson School of Engineering at the University of Pittsburgh. Partners of IRISE are drawn from both the public and private sectors and include PennDOT, the Pennsylvania Turnpike, Allegheny County, Golden Triangle, Michael Baker International, and CAWP. The Program's research produces solutions that lead to more durable, longer-lasting transportation infrastructure. The Association became an IRISE partner in January of 2021.

Thursday's brainstorming session allowed participants to offer potential research topics for future funding in the areas of bridges, pavements, worker safety, and stormwater management. CAWP offered the idea of developing an interactive and immersive training platform using virtual reality (VR) to train construction workers, inspectors, and other project site staff about the dangers caused by runovers, backovers, caught in between, and struck-by accidents in the highway construction industry.

Participants from CAWP who were represented at the meeting included Chuck Niederriter of Golden Triangle Construction, Dan Bruener of Fay S&B USA, Nate Miller of Northeast Paving, Dave Sciuolo of Golden Triangle Construction, Jason Sinay of Plum Contracting, and Rich Barcaskey and Jason Koss of CAWP.
