VOLUNTEERS NEEDED FOR OPERATING ENGINEERS APPRENTICE INTERVIEWS

Volunteers Needed for Operating Engineers Apprentice Interviews

A common issue expressed to the Association is the need to find individuals who can be developed into skilled craft-persons. Annually, each Apprenticeship program tests, interviews, and selects apprentices. We need representatives to assist us in the interview process for Operating Engineers. The interview panel will consist of two Labor and one or two Management representatives. Please consider being on the interview panel, or encourage a representative from your company to do so.

DATES:

February 21st – 25th & February 28th - March 4th

TIME:

8:00 a.m. – 4:30 p.m.

LOCATION:

Operating Engineers Local 66 Office
RIDC Park off Route 28
(111 Zeta Drive, Pittsburgh, PA 15238)

To participate: Select any day on the sign-up link below, if two individuals have already selected a time slot, please select another one.

We will confirm with you your designated time slots. If you have any questions, please contact Jason or Erin at 412-343-8000. Thank you.

Celebrate Safety and the 2021 Construction Season in Style!

The upcoming CAWP/H2AP Membership & Safety Celebration on March 25, 2022, at Heinz Field will combine two of the Association's biggest events.

After celebrating the 2021 construction season at the Monte Carlo reception, join us to honor accident-free supervisors and companies for their safe work during the 2021 construction season. Accident-free supervisors are crew foremen, general foremen, and superintendents who have supervised with a minimum of 5,000 hours with zero lost workday accidents in 2021. Companies with zero lost workday accidents in 2021, and companies with lost workday incidence rates below the national average for 2021 will also be recognized.

*****All tickets sold for the original January 2021 event will be honored for this rescheduled event. No further action is needed if you already purchased tickets*****
