Issue #21-22 | May 23, 2022

## CAWP LEADERSHIP PROGRAM IN GETTYSBURG

### CAWP Members Walk in the Footsteps of Leaders at Gettysburg

On May 19 & 20, CAWP hosted 15 attendees for a unique and engaging leadership program. *In the Footsteps of Leaders: Gettysburg Leadership Program* uses lessons learned on the battlefield at Gettysburg and helps apply those lessons to today's workforce.

For two days, the attendees walked in the footsteps of leaders, learned about the decisions those individuals made, and discussed the ramifications of those choices. Participants were then asked how they would be able to implement those lessons within their own organizations.

Workforce development is a vital part of the heavy/highway construction industry that doesn't stop at recruitment. Identifying leaders within the industry and fostering skills to help them thrive as an individual and as an integral part of your company is the next step in creating a strong workforce. If you would like to consider being part of the next Gettysburg Leadership Program, please contact Emily at [emilym@cawp.org](mailto:emilym@cawp.org).

## EVENT RECAP

## REGISTER for the 1st CAWP ROUNDUP

TUESDAY, JUNE 7 at 11am

### Join Us Online for the All-New CAWP Roundup!

Join us on **Tuesday, June 7 at 11:00 a.m.** for the first installment of the CAWP Roundup, a brief update on notable current topics, what's coming up, and highlights from the past month. The CAWP Roundup, available to Association members, will be presented on the first Tuesday of every month at 11:00 a.m. via Zoom webinar.

After registering, you will receive a confirmation e-mail containing information about joining the webinar. Please note that you will need to register for each monthly session.

## BUSINESS DEVELOPMENT SERIES

### Register for PWSA's Business Development Series to Promote Resources for Small and Historically Marginalized Businesses

***Sessions led by PWSA subject matter experts are aimed to inform and educate.***

As part of a continued community engagement initiative, the Pittsburgh Water and Sewer Authority (PWSA) is conducting a Business Development Series through June 22.

The series aims to provide more information about PWSA services and regulations to small and historically marginalized business owners, building managers, developers, consultants, engineering firms, and contractors. We designed each educational session to bring awareness around recent policy updates, new regulations, available resources, and technology processes to make our systems easier to navigate.

PWSA staff members will focus on our most common touchpoints and roadblocks for commercial customers. The remaining topics include permitting, dye testing, backflow prevention, and contracting among others.

Sessions are held virtually from 9:00-11:00 a.m. Participants may sign up for one session or join the remaining three. The schedule is as follows:

- **May 25 - *Do I need a permit? Demystifying the Development Permit Process:*** A beginner's introduction to our developer's manual, the development permit process, and how to use our permitting software
- **June 8 - *Maintaining Your Business: Backflow Devices, Leaks, Conservation, & Other Maintenance Tips:*** All things water and sewer for businesses and building owners after you move into a brick and mortar
- **June 22 - *Procurement and Contracting:*** How to work with PWSA: Meet with our procurement team to get more information on how to participate in our contracting opportunities

The first session focusing on the stormwater fee and credit program took place earlier this month and was well received. Attendees found the presentation useful and informative. You can view the recorded session at the link below.
