

CAWP EDUCATION BULLETIN

Issue #04-22 | September 29, 2022

The ACI - Pittsburgh Area Chapter has upcoming Concrete Field Testing Technician courses open for registration.

A Concrete Field Testing Technician – Grade I is an individual who has demonstrated the knowledge and ability to properly perform and record the results of seven basic field tests on freshly mixed concrete. The program requires individuals to have a working knowledge of several ASTM concrete standards.

ACI will grant certification only to those applicants who obtain a passing grade on the ACI written exam and successfully completes the ACI performance exam. Recertification is necessary every five (5) years and requires successful completion of both the written and performance exams.

Note: the ACI Concrete Field Testing Technician – Grade I certification is required for initial certification into PennDOT's Certified Concrete Field Technician program.
