

CAWP EDUCATION BULLETIN

Issue #05-22 | October 6, 2022

PennDOT partners with the Northeast Center of Excellence for Pavement Technology (NECEPT) to administer Technician Certification programs to ensure qualified technicians are available to work on state and federally-funded construction projects.

The Asphalt Technician course objectives are to provide a review of essential PennDOT specifications, a review of operations and procedures for asphalt paving, and provide testing for participants to become certified as an Asphalt Field Technician.

Course Info:

All courses will be held from January to April 2023; exam retest dates are from April to May 2023.

Most courses will be held virtually but there will be some in-person courses. In-person courses includes one Asphalt Field Technician Review & Certification course as well as all Superpave Volumetric Mix Design workshops.

The course and exam schedules, PennDOT Publication 351, and FAQs can be downloaded at www.superpave.psu.edu under the Training menu.

Courses & Fees:

Asphalt Technician Certification Program Course
Field Technician Review & Certification Course

2023 Fee
