# CAWP/H2AP Membership Reception & Monte Carlo Night

ICYMI – The 2024 CAWP/H2AP Annual Membership Reception and Monte Carlo Night was held Friday, January 12.

**Stay tuned for the full event recap next week!**

## OSHA Recordkeeping & Reporting- New Electronic Reporting

OSHA now has four methods of injury and illness recordkeeping and reporting – posting Form 300A, electronic reporting of the 300A and (new requirements) the 300 & 301, and severe injury reporting.

### General Recordkeeping Requirements

Contractors with more than 10 employees must keep a record of serious work-related injuries and illnesses. For more information, visit: [osha.gov/recordkeeping](https://www.osha.gov/recordkeeping)

### OSHA 300A Form Posting

Download OSHA 300 (Log) & OSHA 300A (Summary) at [osha.gov/recordkeeping/forms](https://www.osha.gov/recordkeeping/forms)

Post the 2023 OSHA Form 300A by **February 1** and keep posted to April 30, 2024.

### Electronic Reporting Guidance

Electronic reporting is based on size of establishment, not firm. OSHA records are maintained at the establishment level. An establishment is defined as a single physical location where business is conducted or where services or industrial operations are performed. A firm may be

comprised of one or more establishments.

To determine if you need to submit data, determine establishment's peak employment during last year. Each individual employed in the establishment at any time during year counts as one employee, including full-time, part-time, seasonal, and temporary.

For instructions, visit [osha.gov/injuryreporting/index.html](https://www.osha.gov/injuryreporting/index.html)

### **OSHA 300A Electronic Reporting**

Rule applies to establishments with 20 or more employees.

Submit information (electronically) from 300A by **March 2, 2024**.

### **New – OSHA 300/301 Electronic Reporting**

Rule applies to establishments with 100 or more employees in [certain high-hazard industries](#) (see Appendix B for applicable NAICS codes).

Select NAICS code that represents activity that generates most revenue for establishment and/or has most employees, whichever is more applicable to business.

Submit information (electronically) from 300 (Log) & 301 (Report) by **March 2, 2024**.

### **Severe Injury Reporting**

Report a worker fatality within 8 hours. Report any amputation, loss of an eye, or hospitalization within 24 hours.

Call the [nearest OSHA office](#); Pittsburgh (412-395-4903), Erie (814-874-5150), the 24-hour hotline at 1-800-321-6742 (OSHA), or [report online](#).

## **New Training Partnership Announcement!**

CAWP is teaming up with the Amerisafe Group to broaden the training options available to our valued contractor members. Amerisafe Group offers safety and health

training courses that are aligned with industry standards and meet OSHA requirements.

Courses range from trench and excavation, confined spaces, silica, fall protection, and OSHA 10 hour. To view the complete list, as well as member pricing, click the scheduling form below.

### **How to Participate**

Contractors interested in scheduling a course need to complete the scheduling form. Representatives from the Amerisafe Group will be in contact via email/phone to review the requested dates/times and, if necessary, find new dates.

After the course, the contractor will be billed by Amerisafe Group for the reduced amount shown plus any travel fees. Travel fees are billed if distance is greater than 50 miles from Greensburg (No travel fees for training located at CAWP Office). Note, discounted training is only available to CAWP & H2AP Contractor members. The company contact person will be emailed a pdf of certificates noting completion of the CAWP course.

### **Key Benefits of the CAWP-Amerisafe Partnership:**

- Expanded safety and health training opportunities for contractors.
- Flexibility to schedule courses during times that are convenient.
- Control travel costs and save time by offering courses at convenient locations.
- Reduce overall training course costs by up to 50%!

Our industry is rapidly evolving and our training programs and delivery methods needs to adapt as well. This partnership is one example of CAWP's efforts to adapt and to provide our contractors with the flexibility and cost-effective training solutions you need to grow and be safe.

### **Questions?**

For general questions, please contact the Association office at 412-343-

8000.

For course specific questions, please contact Del Kubeldis at Amerisafe Group. [dkubeldis@amerisafegroup.com](mailto:dkubeldis@amerisafegroup.com) / 724-216-1180
