

National Work Zone Awareness Week a Success!

National Work Zone Awareness Week (NWZAW) took place April 15 – 19, 2024. CAWP once again participated in this national initiative to educate the traveling public about the deadly dangers of inattention around highway work areas.

This year's NWZAW theme was "**Work Zones are temporary. Actions behind the wheel can last forever.**" Participating companies were encouraged to pause during the workday for safety demonstrations, discussions about safety policies and other prevention steps, as well as to support Go Orange Day on April 17 by wearing orange to support safety in work zones.

CAWP would like to thank the following member companies for submitting photos of their participation in National Work Zone Awareness Week:

Beaver Excavating Co.

Donegal Construction

Fay, S & B USA Construction

Northeast Paving

If your company participated in National Work Zone Awareness Week, you can still submit your photos.
