New & Improved for 2024

CAWP Cares Program

The **CAWP Cares Program** was born out of a desire to support heavy/highway field workers' physical and mental well-being. This year, recipients will receive a pair of **Honeywell UVEX by Hypershock Safety Glasses** as well as information on the **Yinz Good program**, a campaign aimed at promoting mental health and suicide prevention in the construction industry. Yinz Good seeks to raise awareness about the challenges faced by construction workers and offers resources and support for those struggling with mental health issues.

Order CAWP Cares safety glasses for your field workers today! There is a nominal charge of \$5.00 per pair of safety glasses that will go directly into the **Brandon Chaney CLC scholarship fund***. The glasses will be available for pick up on June 28 at the CAWP 90th Anniversary Celebration. Should you have questions, or wish to order more, please contact Emily at emilym@cawp.org for more information.

**Developed in 2008 by the CAWP Constructors Leadership Council (CLC), this scholarship was named in memory of Brandon Chaney, an aspiring third-generation heavy/highway construction professional who died at the age of 16 in an automobile accident. The scholarship is awarded yearly to the top-ranking first-year apprentice in each of the four heavy and highway apprenticeship programs in western Pennsylvania.*

AGC Member Orientation

As a member of CAWP, your company is also a member of Associated General Contractors of America (AGC). In the past year, AGC has hosted virtual member orientations to provide members with an overview of their AGC of America member benefits and share opportunities for engagement. These sessions have value to both new and existing members, and all are invited to participate.

The next member orientation is scheduled for July 9th at 2pm ET.

MENTAL HEALTH *MINUTE*

**YINZ
GOOD?**

According to Mental Health America, over 21% of adults are affected by anxiety disorders. While most people experience anxiety before important events, an anxiety disorder is an illness that can cause people to feel distressed, uneasy, and frightened for no apparent reason.

If an anxiety disorder goes untreated, quality of life is greatly diminished and can lead to a reduction in productivity. Want to learn more? Mental Health America outlines the causes, types of anxiety disorders, treatments, and more on their website.
